

Called Inland Transportation, talked to Ron Matthews.

I was told Inland Transportation was owned by Pacific Gamble Robinson. They were purchased by Miller Cascade. I called Miller at 206-828-6200, 206-593-1351.

I was told that Inland Transportation was purchased by Arrow Transportation. I called (503/286-3661) and talked with Mike Heath. I was told that Arrow had also purchased Widing Transport and that Mike would call back regarding their position on our request for them to share the expense of Western Processing.

I called Northwest Tank and talked to Mike Saintlaurent. Mike told me they had changed their name to Northwest Enviro Systems and that he would talk to the principles of his company and let me know their position but he was sure that they would cover the shipment they made. He asked for a copy of the EPA record. Picked it up 7/16/86.
